The Kraus Group LLC  
4 Spring Street  
Morristown, NJ 07960

Dear Kraus Marketing,

I am writing to express interest in the Junior Web Developer position at Kraus Marketing. After reviewing the responsibilities listed, I believe that my skills and experience level are a match for the position. Not only do I possess the technical skills of PHP, JS/Jquery, CSS, HTML but I can also deliver more intangible qualities that come with being a developer.

I currently work at GWP Inc as a web developer and as a freelancer at UP Design LLC. At GWP Inc. and UP Design LLC I had the privilege of being hired after working as an intern. GWP Inc. is where my technical skills were really challenged. While working there, every new project presented itself with a new problem I hadn't solved before. With UP Design LLC, the focus was on strategy and research. I had to learn the client's problems and figure out the best way to solve them.

I provide a fresh perspective when it comes to the design of a website. Most importantly, I thrive in the process of problem solving. That's what the service business is all about, right? My philosophy is that I may know all the answers but I am willing to learn and do the necessary research. My job experience has given me the confidence that through careful observation and thorough evaluation, success will always be certain.

I am passionate about web development and would be honored to be a part of your team. Hopefully we can further discuss my background, commitment to web development, and interest in this position with you. I can be reached at (201) 838-6845. I look forward to hearing from you. Thank you for your consideration in this exciting opportunity.

Sincerely,  
Henzly Meghie
